## CROPSCAN 3300H GRAIN ANALYSER

### OPTIMISE YIELD IN THE FIELD

The CropScan 3300H On Combine Grain Analyser measures protein, moisture, oil, starch and fibre in grains and oil seeds every 5 to 8 seconds as they are harvested in the field.

The CropScan 3300H comprises of a Sampling Head, a Fiber Optic Cable, a NIR Spectrometer and a CropScan display. As grain passes up the clean grain elevator, grain fills the remote sample head and the NIR scan is collected.

The results for protein, moisture, oil, starch and fibre are displayed on the CropScan display in the form of Field Data, Field Maps, Graphs, Tank Data, Field and Site Storage Data which are then synced to the user's CropScanAg Cloud Account.

The data enables farmers to make better decisions regarding when to start harvest, blending grain and improving Nitrogen management practices across the farm.

### IT'S TIME TO N-GAUGE YOUR DATA

The CropScanAg N-GAUGE Mobile App offers a subscription-based suite of management tools for farmers to N-GAUGE their harvest data.

**STOCK AVAILABLE**  
CONTACT YOUR BRANCH FOR A QUOTE

**CropScanAg Cloud**  
Push grain transfers seamlessly through your secure CropScanAg Cloud account

**Seamless Integration**  
Connect and share data across your farm from the harvester, tractor to the farm manager

**Virtual Grain Storage**  
View grain quantity & quality across virtual grain storage locations to improve grain marketing & deliveries

**Blending Estimator**  
Maximise you grain contracts & deliveries. Blend grain based on stored protein, moisture & oil

Kit does not include NAV-900 EZ-pilot licence or EZ-Pilot specific platform kit.

### CONNECT YOUR EQUIPMENT TO PLM CONNECT

#### What is MyPLM Connect?

New Holland developed MyPLM Connect as a Farm Management Information System that puts operators in control of their farm from any device, anytime, anywhere around the world. Through integrated solutions that link farm, fleet & data, MyPLM Connect helps optimise time by delivering information to make informed agronomic decisions.

#### Get your equipment connected for these benefits:

- Accurate data collection through the new MyPLMconnect suite - farm, fleet & data.
- Open - fully compatible with all brands of machine and implement. Giving you the flexibility to pick the right machines for your farm. Always.
- Connected - By keeping an eye on the online vehicle dashboard you can maximise uptime, improve productivity and efficiency and even optimise fuel consumption.
- Smart - An intuitive in-cab display means operators can efficiently browse key parameters and communicate with the farm.
- Supported - PLM Customer Support is always on hand to enable you to maximise the performance of your current package.

Only fittable to CNH serial numbered equipment

## MNET

McIntosh & Son have invested in a premium RTK service, MNet.

RTK (Real-time Kinematic Positioning) is a satellite navigation technique used to enhance the precision of position-data, such as GPS.

### SERVICE & SUPPORT

MNet subscription service includes yearly visits to each site to make sure everything is running correctly and efficiently. McIntosh & Son will be managing farmers' subscriptions and overseeing the network once installed.

### COMPATIBILITY

Machines and MNet are compatible and ready to go. All new machines can have MNet installed in them. Part of the way MNet works means using the modem to surpass the RTK message instead of having a vehicle radio module.

### LOCATIONS

Current MNet base stations span as far north as Geraldton and Ravensthorpe in the south. McIntosh & Son plan to expand their network, and locations will be based on enquiry.

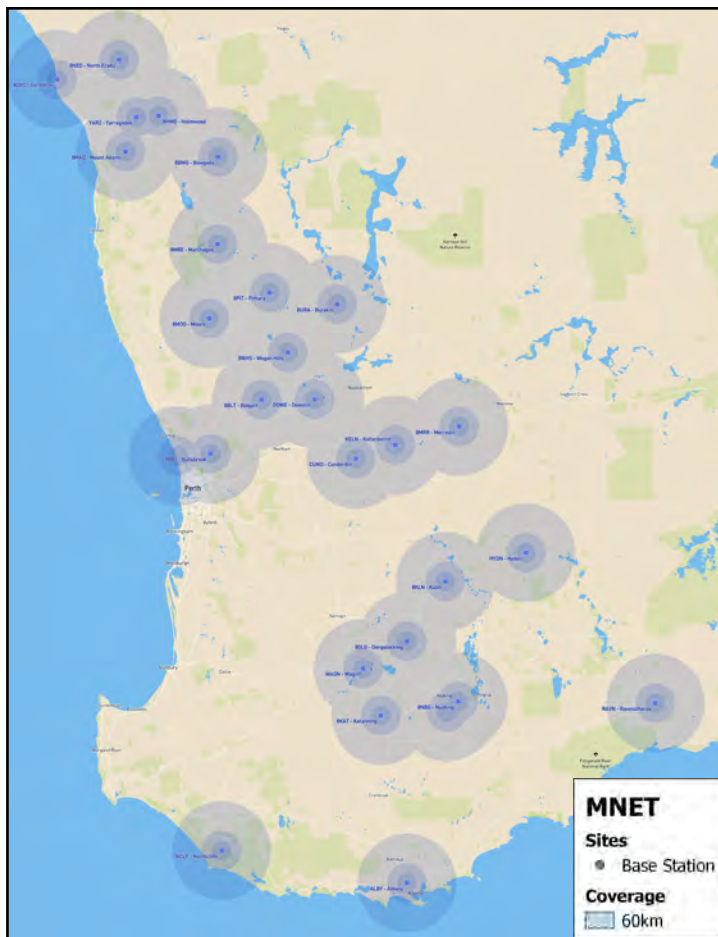

### PRICE

MNet offers an affordable way to maximise the potential of your precision agricultural systems. It is an extremely cost effective tool for operators with multiple machines.

An annual subscription is for FIVE logins (five machines at any one time) per year.

### CONTACT

For further information about MNet, or to enquire about having a subscription on your property, contact the Precision Farming Specialist at your local McIntosh & Son dealership.

## PREVENT HAY FIRES THIS SEASON

### ADVANCED HAY, STRAW AND SILAGE DIGITAL TESTER

Part No: 2189

HAYTECH is a wireless monitoring system for your hay. The handy probes are connected to the internet, allowing you to follow the real-time temperature of your hay effortlessly. You can check the temperature of your hay whenever you want through the free Quanturi online service. You will also receive alert messages to your phone if temperatures rise to unsafe levels.

1. Install the system
2. Place your probes
3. Don't worry!

See all the sensors on one glance with ID, latest measurement and timestamp.

Place the wireless probes in the bales you want to monitor.

That's it. Check on your hay from your device. If temperatures start rising, you will receive an SMS alert.

### BUILD YOUR KIT

CONTACT YOUR BRANCH  
FOR A QUOTE

### DIGITAL HAY MOISTURE PROBE

Part No: 2188

- The 2188 hay probe provides consistent moisture and temperature tests to ensure quality bales that are safe to store.
- Suitable for large and small, square or round bales.
- Light weight, extremely robust and gives a fast result.
- Moisture reading range 8%-44%
- Temperature reading range 0°C- 107°C

**\$570<sub>+GST</sub>**

### DIGITAL GRAIN MOISTURE METER

Part No: 2166

- Direct readout for 40 different grain scales
- Moisture range: 5% to 40% depending on grain tested
- Temperature range: 32° to 113°F (0° to 45°C)
- Repeatability & Accuracy: ± 0.5% in normal moisture range for stored grain
- Display Resolution: 0.1% moisture
- Multi-language display
- Carry case included

**\$505<sub>+GST</sub>**

### ADVANCED HAY, STRAW AND SILAGE DIGITAL TESTER

Part No: 2189

- Automatic density compensation for more accurate results.
- Coupled with "Industry First" Hay Temperature Compensation.
- Ability to store up to 1000 moisture temperature readings that are downloadable to a PC.
- Moisture reading range 8%-72%
- Temperature reading range 0°C- 70°C

**\$660<sub>+GST</sub>**

### EYE-VIEW WIFI CAMERA

Part No: 3206

- Wi-Fi to mobile device camera
- Up to 13hrs battery life
- Android & Apple compatible
- 0.6 Mega-Pixel camera lens with infrared night vision
- 2.4Ghz Wi-Fi with 5dB antenna
- 50Hz - Up to 25fps (640x480)
- 140 degree viewing angle (left-right)
- 100 degree adjustable movement (up-down)

**\$305<sub>+GST</sub>**

## CEL-FI GO SMART SIGNAL REPEATER

### ALL NEW CEL-FI ROAM R41

Part No. RPR-CF-00870

- Improve 3G, 4G, and 5G DSS in your vehicle or boat
- Plug and Play: Quick and easy set up for enhancing connectivity in minutes
- 4th Generation IntelliBoost Chip: Latest Nextivity proprietary chip ensures industry-leading performance
- Voice and Data Coverage: Call, text, and stream from anywhere
- Operator Switching: Select which operator signal to boost and easily change whenever you want via the WAVE App
- Network Safe: Approved by the carriers to boost their signals

**ALL NEW**  
**\$999<sub>+GST</sub>**

### CEL-FI GO CELLMATE

Part No. RPR-CF-00538

- Hard-wearing case that moves with you
- Switch between vehicles and locations with ease
- Additional antenna may be required

**CLEARANCE!**  
**\$1,599<sub>+GST</sub>**

### CEL-FI GO INDOOR/OUTDOOR PACK

Part No. RPR-CF-00169

- Cel-Fi GO repeater
- Internal antenna and external antennas
- Panel antenna with mount
- Wireless 2way splitter
- Required cables

**CLEARANCE!**  
**\$1,299<sub>+GST</sub>**

### CEL-FI GO HOME PACK

Part No. RPR-CF-00113

- Cel-Fi GO repeater
- 2x antennas
- Required cables

**CLEARANCE!**  
**\$899<sub>+GST</sub>**

### CEL-FI GO RV/TRUCKER PACK

Part No. RPR-CF-00115

- Cel-Fi GO repeater
- Antennas
- Required cab

**CLEARANCE!**  
**\$899<sub>+GST</sub>**

100% legal and approved by all networks in Australia

Only 1 bar of 3G is needed to boost up to 4G connection

A single unit can provide up to 900m<sup>2</sup> of indoor coverage, multiple units can increase coverage even further

Mount options for vehicles, marine, caravan and transport applications

## GME UHF RANGE

### 5 WATT IP67 UHF CB HAND-HELD RADIO Part No: TX6160X

- 5/ 1 watt switchable transmission power
- Rugged design, IP67 ingress protection
- Up to 30 hours battery life
- Built-in LED torch
- Improved scan speed
- Rotary power/ volume control for easy operation

**\$210<sub>+GST</sub>**

### Part No:TX6160TP TWIN PACK

**\$484<sub>+GST</sub>**

### 5 WATT DIN MOUNT UHF CB RADIO WITH SCANSUITE™ Part No: TX4500S

- Compact depth design allows for easy installation in confined spaces
- Large LCD screen and user controls
- Radio of choice for 4WD and heavy vehicle owners

**\$445<sub>+GST</sub>**

### 5 WATT COMPACT UHF CB RADIO W/ SCANSUITE™ Part No: TX3500S

- 5 watt compact UHF CB radio
- ScanSuite™ - Digital Scanning Technology
- Digital Signal Processing
- CTCSS & DCS
- 5 Year Warranty
- Made in Australia

**\$341<sub>+GST</sub>**

### XRS CONNECT UHF CB RADIO RANGE

- Built in Australia
- Bluetooth wireless technology
- 5 year warranty

Part No: XRS330C

**\$434<sub>+GST</sub>**

Part No: XRS370C

**\$475<sub>+GST</sub>**

Part No: XRS390C

**\$500<sub>+GST</sub>**

### 5 WATT IP67 UHF CB RADIO Part No: TX4610

- Waterproof
- Large tri-colour backlit display
- Can be flush mounted
- Built for the harsh Australian climate
- Clearly illuminated push buttons

**\$445<sub>+GST</sub>**

## GME ANTENNAS

GME offers a range of rugged, heavy duty radome antennas. The perfect blend of style and performance.

### 1200MM HEAVY DUTY RADOME ANTENNA Part No: AE4705B

- 6.6dBi Gain

**\$189<sub>+GST</sub>**

### 580MM HEAVY DUTY RADOME ANTENNA Part No: AE4704B

- 2.1dBi Gain

**\$154<sub>+GST</sub>**

### ON-GLASS UHF CB ANTENNA Part No: AE5002

- On-glass UHF CB antenna
- 2.1dBi Gain
- 210mm Length
- Ground Independent Design
- Built-In AVS Circuitry
- 1 year warranty

**\$95<sub>+GST</sub>**

## PEERLESS AIR COMPRESSORS

### P185D-T 50HP DIESEL SCREW COMPRESSOR TRAILER

The Peerless diesel P185D Rotary Screw Compressor has an impressive 50HP, 4 cylinder - direct injected diesel motor.

Delivering 185CFM (5,232 litres) of free air delivery.

- Australian-made A-frame trailer
- In-built toolbox
- 185CFM of free air delivery
- 13MM x 30M Air hose reel
- Battery isolator switch
- Fuel tank storage

**TRAILED**

**\$34,000<sub>+GST</sub>**

### P125D 32HP DIESEL SCREW COMPRESSOR

The Peerless diesel P125D-T Rotary Screw Compressor has an impressive 24KW, 3 cylinder - direct injected diesel motor.

Delivering 125CFM (2,800 litres) of free air delivery at 7BAR.

A great feature of this motor is that all coolant is ran through a hydraulic system achieving a greater flow rate.

## FIRE EXTINGUISHERS

The inside chambers of agriculture equipment can climb to extreme temperatures. When chaff is picked up and caught inside, if they heat up, they can smoulder and catch on fire.

Checking your machines regularly to remove straw or grass build up is recommended, as well as checking spark arrestors are maintained.

However even with diligent checks to your equipment, it's important to always be prepared for any scenario with the recommendation to always have at least two fire extinguishing options equipped to each machine.

Part No	Part No	RRP
CH2055/17	Fire extinguisher 2.3kg ABE dry chemical	\$43.53+GST
CH2058/17	Fire extinguisher 4.35kg ABE dry chemical	\$72.95+GST

CH9LFOAM-FF	Fire extinguisher 9.0L foam	\$214.91+GST

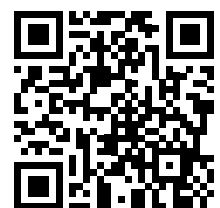

## FIRE SUPPRESSION KITS

**The reality is that occasionally machines catch fire.  
A Fire Suppression System is the solution.**

- The world's first mobile equipment, fluorine-free fire suppression liquid
- Designed to suppress fires in temperatures from 0°C to +60°C
- Foam concentrate – just add water
- Environmentally sustainable and safer to handle
- 30% more effective than dry chemical alternatives\*
- 50% reduced cleanup time compared to traditional systems\*

\* Test results are to be considered as results reached under certain and controlled test conditions. These test results should not be treated as specifications and Sandvik or McIntosh & Son does not guarantee, warrant or represent the outcome of test results in any or all circumstances.

## REDUCE GRAIN LOSSES WITH BUSHEL PLUS™

**\$4,238.50<sub>+GST</sub>**

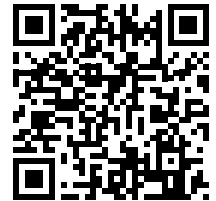

### BUSHEL PLUS 1.5M COMBINE CALIBRATION KIT

Part No: BP-KIT-150

The Bushel Plus™ system includes precise, dependable instruments that are designed to easily be used with any combine. With your safety in mind, all units are remote controlled and portable so that no wiring or bolts are needed to attach to any combine.

1. Magnetic system attaches to any combine in seconds
2. Remotely release Drop Pan
3. Clean sample with the Bushel Plus Air Separator
4. Weigh sample and check results with App

**HEAR FROM GROWERS**

## FEEDSTORM™

### FEEDSTORM UPPER CROSS AUGER ASM

Part No: UCA-MCD-ASM-A

Fed up with constantly having to stop to unblock your header front? Designed and made in Australia by Primary Sales to fit onto existing header fronts to replace the OEM cross augers. The Feedstorm™ Adjustable Upper Cross Augers provide more control of your harvest when it counts.

**\$19,500<sub>+GST</sub>**

## DUCK FOOT™

**\$17.50<sub>+GST</sub> EA**

### DUCK FOOT HART CART REEL PADDLE EXTENSION

Part No: DF-HC002

Duck Foot™ is the original slip-over paddle tine designed to easily slip over factory tines, attaching directly to the reel pipe and further secured with the unique clip system.

This product is a great solution to broadacre farm harvest front loss – saving farmers both time and money.

# PROUDLY AUSTRALIAN SINCE 1926

## A BETTER CLASS OF OIL

### CONVOY DHD

(Premium Mineral Oil)

- High performance, heavy duty, low ash
- Improved shear stability, oxidation resistance and aeration control
- Manufacturer approved product to maintain vehicle warranty
- Reduces soot thickening

Part No. DHD205

DHD 20L

\$142+GST

DHD 205L

\$1,253+GST

DHD 1000L

\$5,423+GST

### CONVOY DFX

(Premium Mineral Oil)

- Full zinc, mid ash, diesel oil
- Excellent protection of engine parts
- Mid ash formulation controls combustion chamber deposits
- Resists oil thickening
- Can be used in mixed fleets
- Maintains oil viscosity in service

Part No. DFX205

DFX 20L
